design & security

SOMMER O.S.G LOUVRES

DESCRIPTION

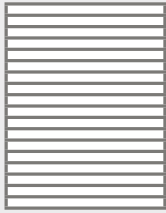

The SOMMER protection louvers are rainproof and provide a visual protection. They consist of specifically designed firmly and horizontally inserted steel lamellae which are welded in a distance of 40 mm to a frame with a wall thickness of 6 mm. The lamellae have been tested according to EN 1627 and certified in accordance with RC6.

REQUIREMENTS

burglary protection according to EN 1627

RC6
